Hidden behind the rain-shadow of the [Dhaulagiri massif](#) lies a land untouched by modern times. The Lower Dolpo Trek is a journey into the soul of ancient Nepal. Here, turquoise alpine lakes like Shey Phoksundo slice through stark, high-altitude deserts, and medieval villages still practice Bon Po—a shamanistic religion pre-dating Tibetan Buddhism.

Unlike crowded routes in Everest or Annapurna, trekking in Lower Dolpo offers true solitude. You will traverse deep river gorges, cross two high mountain passes over 5,000 meters, and experience the warm hospitality of ancient mountain communities. At Trek Curator, we design fully supported, safety-first Lower Dolpo expeditions tailored to adventurers seeking raw Himalayan wilderness.

Route Overview

Your journey begins with a scenic flight from Kathmandu to Nepalgunj, followed by a mountain landing at Juphal airstrip (2,475 m). From Juphal, the trail follows the rushing waters of the Thuli Bheri River toward Dunai before heading east into the fortress valleys of Tarakot.

You will trek through dramatic river canyons up to the high, arid valley of Dho Tarap (4,090 m). Continuing across alpine terrain, the route tackles Numa La Pass (5,309 m) and Baga La Pass (5,169 m), descending to the cobalt-blue waters of Shey Phoksundo Lake (3,611 m) and Ringmo Village before completing the circuit back to Juphal.

Route Sequence: Kathmandu → Nepalgunj → Juphal → Dunai → Tarakot → Dho Tarap → Numa La Pass → Baga La Pass → Shey Phoksundo Lake / Ringmo → Dunai → Juphal
